

Announcement

2nd ECARS WORKSHOP

Satellite Cal/Val Activities employing surface and airborne in-situ measurements

Location: Agios Nikolaos and Finokalia, Crete, Greece

Period: 3-12 April 2017

Embedded event:

Participation in the PRE-TECT experimental campaign that is organized in the framework of the ACTRIS RI and will be held in Crete, at the atmospheric observatory of Finokalia. The experiment will be a first-class opportunity to participate in a large-scale atmospheric cal/val exercise, focusing on the evaluation of aerosol and cloud satellite products employing ground-based and airborne sensors. Dedicated hands-on training activities will take place. The workshop will give the opportunity to participate in the campaign and its daily briefings, the instrument setup and data analysis as well as the data interpretation.

Venue:

Mistral Bay Hotel, Agios Nikolaos, Crete, Greece

Logistics:

No fees applied.

Lectures and hands-on training will be provided in the site of Finokalia and in Agios Nikolaos in Crete.

Transport will be provided to the Finokalia station.

Accommodation will be in Agios Nikolaos in Mistral Bay Hotel

(<http://www.mistralbay.gr/hotel/welcome/>).

Single: 37 € / night

Double :46 € / night

WiFi available

Notes:
